

WF311190 ASSEMBLY INSTRUCTION

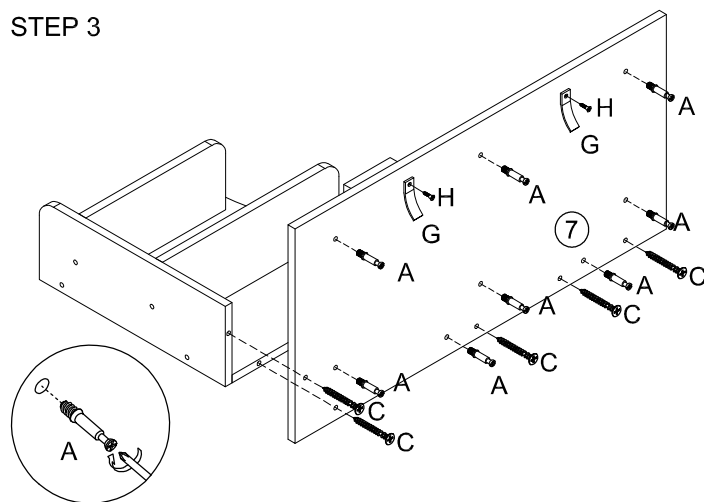

STEP 2

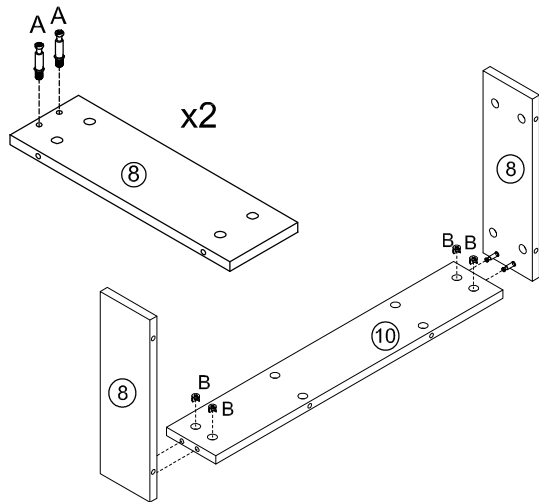

STEP 1

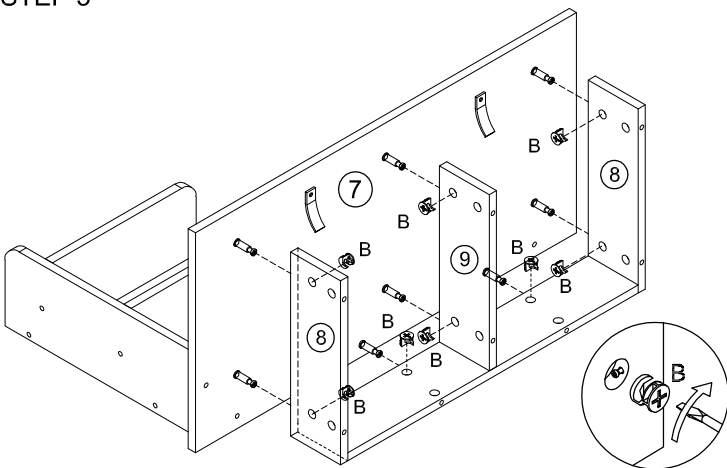

STEP 3

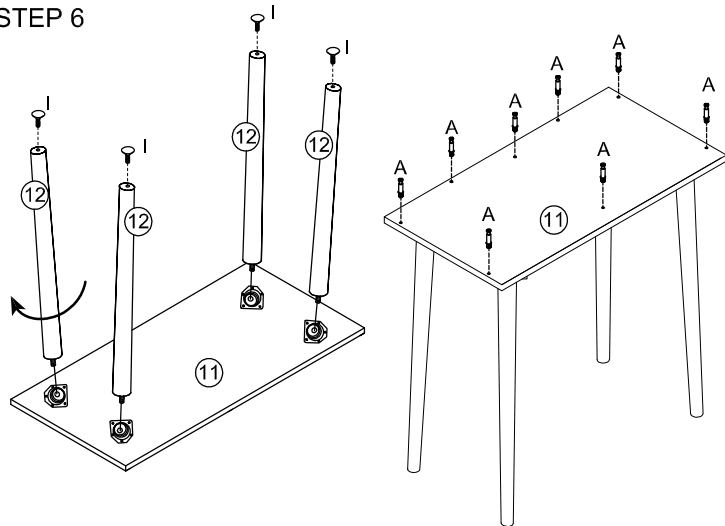

STEP 4

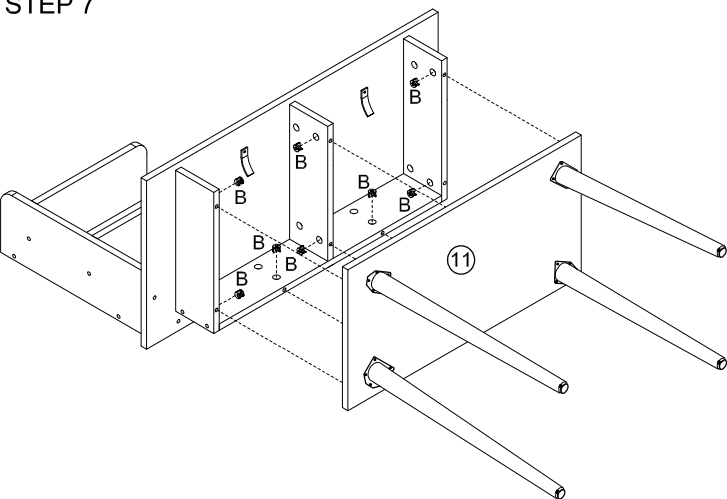

STEP 5

STEP 6

STEP 7

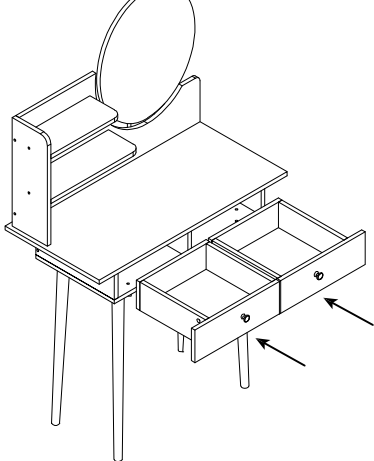

STEP 8

The diagram illustrates the final assembly steps for the chair. On the left, the backrest (part 1) is shown being attached to the main frame using four screws labeled 'D'. On the right, two identical L-shaped seat frame components (parts 13 and 14) are shown, which are attached to each other using two screws labeled 'C'. A circular inset provides a detailed view of a corner joint, showing a screw labeled 'J' being used to secure a stop labeled 'D' into the corner of two frame parts, with a dashed line indicating the alignment.

STEP 9

STEP 10

A line drawing of a vanity table with a rectangular top, a round mirror mounted on a swivel back, and two drawers on the right side. The drawers are shown open, revealing their internal dividers. Two arrows point to the drawers, indicating they are to be attached to the table.

STEP 11

This diagram illustrates the final assembly step. Four vertical rods, labeled 20, are being mounted onto the base plate, labeled 19. Each rod is secured at its base with a square flange and a screw. A curved arrow indicates that the rods are to be rotated into a vertical position.
