Vital information-READ NOW

For your child's safety, please read these instructions carefully before use and keep them for future reference. Failure to follow the instructions contained in this manual could result in serious injury to your child.

- Do not use this child safety seat at the home. It has not been designed for home use and should only be used in your car.
- Never leave your child unattended in the child restraint system even for a short time.
- The child safety seat should be changed when it has been subject to violent stresses in an accident.
- This child restraint should be securely belted in the vehicle even when not in use. In a crash or sudden stop, an unsecured child safety seat may injure other occupants.
- Always make sure that any straps holding the seat restraint to the vehicle shall be tight, any straps restraining the child should be adjusted to the child's body, and check that the straps shall not be twisted.
- IMPORTANT! Ensuring that any lap straps is worn low down, so that the pelvis is firmly engaged.
- Do not use any load bearing contact points other than those described in the instructions and marked in the child restraint, when in doubt, please contact the child restraint manufacturer..

02

- Any luggage or other objects liable to cause injuries in the event of a collision shall be properly secured.
- The rigid items and plastic parts of a child restraint must be so located and installed that they are not liable, during everyday use of the vehicle to become trapped by a moveable seat or in a door of the vehicle.
- To prevent from the risk of fall, your child should always be fastened.
- It is dangerous to make any alteration or additions to the device without the approval of the competent authority, and a danger of not following closely the installation instructions provided by the child restraint manufacturer.
- This child safety seat is designed for children from 40-150cm.
- The child restraint must not be used without the cover.
- The seat cover should not be replaced with any other than the one recommended by the manufacturer, because the cover constitutes an integral part of the restraint performance.
- Before you adjust any movable or adjustable parts of your child safety seat, you must remove your baby from the child safety seat.
- The child safety seat should be kept away from sunlight if the seat is not provided with a textile, otherwise it may be too hot for the child's skin.

03

- Never use a second-hand product, as you can never be certain what was happened to it.
- Notice: Do not use in any configuration not shown in the instructions.
- Importance! Before using ISOFIX child restraint system, please read carefully the manual of automobile manufacturer about the instruction of ISOFIX fix point.
- If position of the adult safety-belt buckle relative to the main load bearing contact points on the child safety seat is unsatisfactory. Please contact the manufacturer if in doubt about this point.

Type	Stature	Facing direction	Installation	Approval type

04

Seat parts introduction

06

Seat parts introduction**WARNING**

Caution: If your baby's height is <75cm, please install an inner cushion in the baby seat. If your baby's height is >75x<150cm, please take out the inner cushion.

07

Securing your baby**Harness system & Headrest adjust**

Loosen the shoulder straps by pressing the harness adjusting button and pull the shoulder straps as far forward as possible.

Pull the headrest adjusting loop to adjust the headrest upward/pull the headrest adjusting loop and push the headrest back to slide the headrest downwards.

Before installing the baby car seat into your vehicle, please move the headrest to the correct height for your baby/child and check that it is properly engaged by lightly sliding the headrest down.

There are 9 adjustable headrest positions. Please adjust the headrest height to close to your baby/child shoulder position, if at the middle two positions, please use the higher position.

08

Securing your baby**To change the reclining positions**

There are 5 recline positions of this product. To change the position, grasp the lever at the front of the seat, push or pull the seat into the desired position until you hear an audible sound "click".

Rearward facing adjust
Can be used in 5 recline position for stature 40-105cm rearward facing position, there are 5 recline positions can be used in this product.

Forward facing adjust
For stature 76-105cm forward facing position, there are 5 recline positions can be used in this product.

Forward facing adjust
For stature 100-150cm forward facing position, there are 5 recline positions can be used in this product.

09

Installation in the vehicle**Open support leg**

First, remove the supporting leg from the bottom of the seat. When the supporting leg is rotated outward to 45°, the supporting leg assembly can be pulled outward.

CAUTION: The seat can only be rotated when the supporting leg assembly is extended.

Retract support leg

Rotate the support leg backward to 45° and push the support leg assembly inward until it is fully in place. Finally, tuck the support leg into the slot at the bottom of the seat.

10

Installation instruction for STATURE 40-105cm Rearward facing, ISOFIX + Support Leg + harness

Caution: Please only move to next step when ISOFIX has been slid to the end with appearing the red marks.

Push the ISOFIX connectors directly into the anchorages until you hear an audible sound "click".

11

Installation instruction for STATURE 40-105cm Rearward facing, ISOFIX + Support Leg + harness

Press the rotating button, adjust the seat to sideward facing position after access for placing child from the seat unit after the car seat is fitted.

CAUTION:

Before every journey, make sure that the rotating part has been fully engaged. Do not drive unless the seat is in forward or rearward facing position.

The seat can be 360° rotated without limiting (Any angles).

Loosen the shoulder straps by pressing the harness adjusting button and pull the shoulder straps as far forward as possible.

CAUTION:

The seat can be 360° rotated without limiting (Any angles).

12

Installation instruction for STATURE 40-105cm Rearward facing, ISOFIX + Support Leg + harness

Open the buckle by pressing the red button, then fix the shoulder straps at the sides of the car seat.

Please note a correctly adjust headrest ensures optimal protection for your child in the safety seat; the headrest must be adjusted so that the shoulder straps are at the same level as your child's shoulders or slightly above.

Place child in the car seat.

14

Installation instruction for STATURE 40-105cm Rearward facing, ISOFIX + Support Leg + harness

Guide the two buckle latches together and engage them before putting them into the buckle, this should make a clicking sound.

Tighten the harness adjusting strap and make sure the harness is reasonably tight. It should restrain but not make the child uncomfortable.

Press the rotating button to adjust the seat direction. Only rearward facing position is available for child 15months.

CAUTION:

Please ensure that the lap strap is worn low down, so that the pelvis is firmly engaged. Pull on the strap until it lies flat and is close against your child's body.

CAUTION:

Pull the strap end straight towards you, not upwards or downwards. Please pay attention to the strap end. Whilst travelling (especially outside the car) is should always be attached to the cover.

15

Installation instruction for Stature 76-105cm Forward facing, ISOFIX + Support Leg + harness.

Caution: Please only move to next step when ISOFIX has been slid to the end with appearing the red marks

Push the ISOFIX connectors directly into the anchorages until you hear an audible sound "click".

16

Installation instruction for Stature 76-105cm Forward facing, ISOFIX + Support Leg + harness.

Grasp the seat body to check the seat if it is fastened tightly or shakes, meanwhile observe the ISOFIX red/green indicator. If the seat shakes and the ISOFIX connectors are pulled out, please repeat the above steps and install it again.

Squeeze the support leg adjusting button, pull out the support leg until it rests firmly on the floor. Observe the ISOFIX red/green indicator to confirm the installation status

17

Installation instruction for Stature 76-105cm Forward facing, ISOFIX + Support Leg + harness.

Press the rotating button to adjust the seat sideward facing position to access for placing adult from the seat unit after the car seat is fitted.

Caution: Before every journey, make sure that the rotating part has been fully engaged. Do not drive unless the seat is in forward or rearward facing position.

The seat can be 360° rotated without limiting (Any angles).

Loosen the shoulder straps by pressing the harness adjusting button and pull the harness shoulder as far forward as possible.

18

Installation instruction for Stature 76-105cm Forward facing, ISOFIX + Support Leg + harness.

Open the buckle by pressing the red button, then fix the shoulder straps at the sides of the car seat.

Please note a correctly adjust headrest ensures optimal protection for your child in the safety seat; the headrest must be adjusted so that the shoulder straps are at the same level as your child's shoulders or slightly above.

Place child in the car seat.

19

Installation instruction for Stature 76-105cm Forward facing, ISOFIX + Support Leg + harness.

Guide the two buckle latches together and engage them before putting them into the buckle, this should make a clicking sound.

Caution: Please ensure that the lap strap is worn low down, so that the pelvis is firmly engaged. Pull on the strap until it lies flat and is close against your child's body.

The straps should be correctly adjusted and ensure they are not twisted.

Caution: Please only move to next step when ISOFIX has been slid to the end. Support leg must be fully storage.

Press the strap end straight towards you, not upwards or downwards. Please pay attention to the strap end. Whilst travelling (especially outside the car) is should always be attached to the cover.

20

Remove the baby insert. Loosen the shoulder straps by pressing the harness adjusting button and pull the harness shoulder as far forward as possible.

Place the shoulder strap behind the headrest cover, open the cover of buckle storage, assemble the buckle properly, then put it in the storage and close finally.

Caution: Please only move to next step when ISOFIX has been slid to the end. Support leg must be fully storage.

Unfold support leg until locks in place. Press the ISOFIX release button to slide the ISOFIX connectors to the end. Support leg must be fully storage.

Caution: Please only move to next step when ISOFIX has been slid to the end. Support leg must be fully storage.

Remove the shoulder strap from the cover by detaching the cover from it.

**Installation instruction for Stature 100-150cm,
Forward facing, ISOFIX attachment+Vehicle 3 point belt.**

Push the ISOFIX connectors directly into the anchorages until you hear an audible sound "click".

Grasp the seat body to check the seatlift is fastened tightly or shakes, meanwhile observe the ISOFIX red/green indicator. If the seat shakes and the ISOFIX connectors are pulled out, please repeat the above steps and install it again.

22

Installationin the vehicle

Adjust the height of the headrest to suit your child. Put the vehicle belt through the belt guide. Place your child into the baby car seat and let the vehicle belt pass the belt guide. Fasten the vehicle belt with an audible sound "click".

CAUTION:

Make sure lap strap is worn low down, so that the pelvis is firmly engaged. Pull on the strap until it lies flat and is close against your child's body.

The straps should be correctly adjusted and ensure they are not twisted.

Remove the baby insert, loosen the shoulder straps by pressing the harness adjusting button and pull the harness shoulder as far forward as possible.

Open the cover of buckle storage, assemble the buckle properly, then put it in the storage and close finally.

The seat can be 360°rotated without limiting (Any angles).

25

Maintenance and cleaning of the product

Regularly check for wear or damage of parts. If the parts are found to be damaged, please do not use them.

5-point harness

The five-point harness is an important safety component. Food, beverages or other residues may accumulate in the lock, please wash with warm water. When the lock function is normal, a "click" sound can be heard. If the performance of the lock is reduced due to dirt inside, please contact the manufacturer or retailer of the child restraint system to replace it with a new buckle.

Seat belts and plastic parts

Wipe clean with warm water and neutral soap.

About cover

The child restraint system cannot be used without a cover!

The cover can be removed and washed, but we do not recommend that you remove cover frequently. Once you disassemble and wash the cover, please re-install it according to the original structure, and make sure that there is no under-installation or wrong installation of any parts. when cleaning the cloth cover, please scrub gently with soap and warm water. Please do not use any detergent, solvent or very strong soap. do not disassemble, move or change the cloth cover of the child car seat or any structure or component of the safety belt system; do not add any lubricants or other chemicals to the cloth cover and seat belt system; when washing covers, shoulder covers and crotch pads, please wash them by hand when the water temperature is below 30 degrees.
